The Honorable Mitch McConnell
Senate Minority Leader

Dear Majority Leader Reid and Minority Leader McConnell:

Last year, Congress passed the Biggert-Waters Flood Insurance Reform Act to reauthorize the National Flood Insurance Program (NFIP) and to make it self-sustainable. While we support the long-term reauthorization of the program, we have serious concerns about the sharp rate increases included in that legislation that could render flood insurance unaffordable and unattainable for up to 4 million homeowners and businesses nationwide.

The Federal Emergency Management Agency (FEMA) only recently initiated the affordability study required under Biggert-Waters, and we are united in our effort to secure immediate rate relief for policyholders so the results of this study can inform the implementation process. The House and the Senate have both shown strong bipartisan support for this approach by including identical language in each chamber's respective FY 14 Homeland Security Appropriations bills to temporarily delay certain rate increases.

Although these homeowners and businesses built to code and played by the rules, their premiums could go from a few hundred dollars to tens of thousands of dollars because of the rate reforms included in Biggert-Waters. While we continue to work together for a comprehensive and fiscally responsible legislative solution, it is imperative that we provide immediate rate relief for impacted policyholders, and we request the inclusion of these provisions in any viable legislative vehicle that may be available.

Sincerely,
