Dear Senator Warren, Senator Lujan, Representative Johnson, Representative Jayapal, and Representative Goldman:

Thank you for your letter dated March 15, 2026, regarding Amazon's decision to license the *Melania* documentary.

We disagree with any suggestion that Amazon's decision to license this film and accompanying series was improper. We regularly release documentaries that offer unique perspectives on cultural and historical figures across the political spectrum.

Melania was produced by Muse Films, New Element Media, and RatPac Entertainment. Amazon MGM Studios became the licensor of the film and accompanying series following a thorough and competitive bidding process. *Melania* gave us the opportunity to tell a story that's never been told before, with unprecedented access to a historic presidential transition through the perspective of the First Lady. Our decision was based on the film and series itself - the access, the story, and its cultural and historical relevance.

Thank you for the opportunity to respond.

Sincerely,

Brian Huseman
Vice President, Public Policy
