The Honorable Susan Collins
Chair
Senate Committee on Appropriations
Washington, D.C. 20510

The Honorable Patty Murray
Vice Chair
Senate Committee on Appropriations
Washington, D.C. 20510

The Honorable Jerry Moran
Chair
Subcommittee on Commerce, Justice,
Science, and Related Agencies
Washington, DC 20510

The Honorable Chris Van Hollen
Ranking Member
Subcommittee on Commerce, Justice,
Science, and Related Agencies
Washington, DC 20510

Dear Chair Collins, Vice Chair Murray, Chair Moran and Ranking Member Van Hollen:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2027 Commerce, Justice, Science, and Related Agencies appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

Elizabeth Warren
United States Senator

**Warren, Elizabeth(D-MA) Commerce, Justice and Science
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Discovery Museum, Inc.	Discovery Museum will double the reach of its Traveling Science Workshops program to 120,000 students annually by 2030. TSW brings hands-on science experiences to PreK-8th-grade students, sparking early interest in STEM, building STEM confidence, and helping children envision STEM career pathways.	Acton MA	\$1,018
Barnstable County	Funding will support construction of an approximately 9,500-square-foot CCCE office, program and meeting areas, and operational support infrastructure, including a commercial kitchen for nutrition programming and marine research and aquaculture workspace.	Barnstable MA	\$9,000
Police Assisted Addiction & Recovery Initiative	Federal support will expand PAARI's national deflection training program, equipping law enforcement to respond to substance use crises by connecting individuals to care instead of arrest. The project will strengthen public safety, reduce justice system involvement, and expand treatment access.	Beverly MA	\$392
Museum of Science	To create and execute world-class STEM programming in the Public Science Common, Utilizing an Interactive Media Display System.	Boston MA	\$2,000
New England Aquarium	For rescue, rehabilitation, and research programs to advance the health outcomes of cold stunned sea turtles in Cape Cod Bay.	Boston MA	\$1,206
The Nature Conservancy	A project to advance an integrated approach to coastal resiliency that combines living shorelines, natural habitat restoration, and proactive coastal relocation planning.	Boston MA	\$1,348
University of Massachusetts Boston	New and more effective methods and tools of managing the risks and vulnerabilities of extreme coastal storms in Gloucester. These include development of nationally relevant models for post-disaster recovery planning, economic resilience and fiscal stability, and innovative community engagement.	Boston MA	\$500
Northeastern University	"To purchase and install a Time-Resolved/Operando XRD System, Ultra-High Temp Mechanical Testing & Oxidation system, Ultra-High Temp Sintering system, In-Situ Electrochemical XRD system, and Thermal Conductivity System in a Material Testing and Characterization Laboratory."	Boston MA	\$3,515
Suffolk County Sheriff's Department	Support and expansion of a model for the delivery of behavioral health care and substance use disorder treatment for criminal justice-involved individuals.	Boston MA	\$2,500
Boston College	Boston College requests \$1,200,000 in federal funding to upgrade STEM laboratory equipment and technology at Messina College. Messina College is a new associate's degree residential higher education program established to prepare first-gen and high financial need students from Massachusetts.	Boston MA	\$1,000
Strategies for Youth, Inc	Due to increasing youth arrest rates across the Commonwealth and a gap in youth education on police interactions, this project will empower youth with the knowledge and skills needed to avoid legal system contact and facilitate important community dialogues on keeping police interactions safe.	Cambridge MA	\$93
La Colaborativa	To implement a comprehensive youth violence prevention program to prevent juvenile delinquency, mitigate mental health issues, establish career pathways, and reduce neighborhood violence through training and strengthening law enforcement relations.	Chelsea MA	\$805
The Concord Consortium, Inc.	To expand access to simulation-based Earth systems learning, equipping K-12 educators and students with the skills to model and understand real-world Earth processes aligned with NASA's Earth science mission.	Concord MA	\$500

Louis D. Brown Peace Institute	This project will expand and sustain capacity to deliver evidence-informed community violence intervention programs including Survivor Outreach Services, Community Re-Entry Services, Training and Education for community partners, and youth programming.	Dorchester MA	\$3,000
Bristol Community College	Campus Security and Emergency Response Enhancement Project	Fall River MA	\$750
Woodwell Climate Research Center	The purpose of this project is to build a state-of-the-art climate science education and GIS hub that connects communities, students, and industry with accessible, translatable data and GIS services to better inform understanding, planning, and policy decision-making related to climate change.	Falmouth MA	\$1,000
Massachusetts State Police	This project will strengthen the Massachusetts Internet Crimes Against Children Task Force's digital forensic laboratory by investing in critical software, hardware, and storage needed to identify offenders, rescue victims, and reduce case backlogs in online child exploitation investigations.	Framingham MA	\$854
Gloucester Fishermen's Wives Development Programs, Inc.	Improve the economic performance, market efficiency, and utilization of federally managed fisheries by increasing domestic demand for underutilized seafood species. We will address structural barriers that limit market access and value by sustainably aligning supply chains and economic outcomes.	Gloucester MA	\$2,650
Greenfield Community College	Greenfield Community College seeks to upgrade its campus security and emergency response infrastructure. These upgrades will address primary gaps in critical security areas, including Emergency Communications, Interior Security Cameras, and aging Campus Police vehicles and body armor.	Greenfield MA	\$608
City of Greenfield	The city of Greenfield is seeking funding for updating their police cruisers. Funding these cruisers will enable Greenfield to invest in electric and energy efficient options which will reduce the overall costs to the city while also maintaining its goals as a green city.	Greenfield MA	\$900
Trustees of Tufts College (Tufts University)	To expand Tufts University's Food Systems & Biomaterials Innovation Hub by integrating advanced computational capabilities into the innovation pipeline for food systems and biomaterials. The facility will support startup formation, workforce training, and applied research.	Medford MA	\$2,000
Old Dartmouth Historical Society dba New Bedford Whaling Museum	The NBWM will ignite STEAM learning through robust educational programming and K-12 field trips, developing dynamic onsite and traveling exhibitions, and activating an all-ages Maker Space. This project will directly serve 125,000+ K-12 students, families, and visitors annually.	New Bedford MA	\$500
Fishing Partnership Health Plan Corporation, The	To address disparities that exist for underserved commercial fishermen nationwide, FP will further develop and document the Community Health Worker model. This project will refine and scale this model for national adoption, improving industry-wide health and safety while reducing taxpayer costs.	New Bedford MA	\$2,000
Coonamessett Farm Foundation, Inc.	CFF and fishing industry partners propose a fishery development program to outfit at least 10 large commercial fishing vessels with automatic jigging machines and related equipment needed to develop a new fishery for unmanaged oceanic squid species.	New Bedford MA	\$10,000
Massachusetts Marine Animal Rescue Program	This project will ensure safe and rapid emergency rescue of stranded marine animals along the Massachusetts coastline, which assists in evaluating risks to animals, broad ocean ecosystem dynamics, and the risks of infectious diseases impacting human health.	Plymouth MA	\$325
Center for Coastal studies	We seek short-term support for a new, non-profit genetics/omics laboratory on Cape Cod, Massachusetts. This lab enhances local capacity for research on coastal/marine species, with particular support for long-term population research.	Provincetown MA	\$213

The Center for Teen Empowerment, Inc.	Teen Empowerment's Visions for the Future provides mentoring, emotional support, and job training, to successfully support emerging adults, ages 17-24, who are justice-involved, returning citizens, or navigating street-influenced environments.	Roxbury MA	\$150
Parent Villages Inc.	Parent Villages will expand trauma-informed services for families and youth impacted by violence in Springfield in partnership with community-based organizations. Funding will support community-based violence prevention, victim services and reentry support in a city with high public safety needs.	Springfield MA	\$500
Brandeis University	This project will modernize Brandeis University's aging access control infrastructure to support rapid lockdown capabilities, enhance campus safety, and improve coordinated emergency response across regional public safety partners.	Waltham MA	\$3,500
Westfield State University	Westfield State University will create an immersive classroom with new technology, including virtual reality to enhance student learning. It will promote learning and problem-solving skills for criminal justice students and be available to local law enforcement for training and continuing education.	Westfield MA	\$1,500
Woods Hole Oceanographic Institution	\$4 million is requested in fiscal year 2027 to support rebuilding and modernization of the East face of the pier and associated research, testing, and berthing facilities to further enhance capacity in support of NOAA's coastal operational, technology development, and data collection requirements.	Woods Hole MA	\$4,000
Worcester Polytechnic Institute	WPI seeks \$1.5 million for the Medical Innovation and Training Center (MITC), a hub for advancing robotic surgery and healthcare automation. The project supports acquisition of surgical robotics, simulation equipment, and the development of new medical technologies to expand access to patient care.	Worcester MA	\$1,500
The Worcester Natural History Society, Inc. (dba EcoTarium)	"Lift Off! will engage and inspire aspiring scientists and engineers through new planetarium programs and roof repairs; a ""Goddard Park Auburn Rocket"" exhibit; a hands-on Ad Astra Per Aspera Room for children with sensory sensitivities; and an exhibit on space science for elementary students. "	Worcester MA	\$1,970
